Why Squatting Days?

...The reasons for squatting are numerous and various: to protest against unaffordable and increasing **rent**, to prevent a **building** from being torn down, out of the need for new **self-organised** and **non-commercial** spaces; for **living**, as **art studios**, **workshops**, **cultural centres** and many many more. ...“

Why Squatting Days?

„....How can we **increase** the **success** of squatting? What are the **problems** holding us back from just taking houses? And how do we get to a **praxis** which leads our ideas to reality?...“

Why Hamburg?

Rote Flora squatted since 25 years.

2009: successful okupation of „Gängeviertel“

Since 2011 several attempts of okupations in
Hamburg (social centers, living, house-saving,...)

Video

+ attempts in other cities (Frankfurt, Berlin,
Hannover, Bremen,...)
